Warnings

- The Power Bank will generate heat when charging. Use it in well ventilated area when charging.
- Keep the Power Bank away from heat sources, direct sunlight, humidity, water or other liquids.
- Do not operate the Power Bank if it has been wet or damaged to prevent against electric shock, explosion and/or injury. Improper repairs of this device may place the user at risk.
- Do not use the Power Bank with wet hands.
- Keep the Power Bank ports free from dust, lint, etc. that may prevent proper connections.
- Do not use this unit for anything other than its intended use.
- The Power Bank is not a toy. Keep out of reach of children.
- Lithium-ion batteries can easily rupture, ignite, or explode when exposed to high temperatures, or direct sunlight. Do not charge under pillows or blankets. They should not be stored in a car during hot weather. Short-circuiting a Li-ion battery can also cause it to ignite or explode. Never open a Li-ion battery's casing. Li-ion batteries contain safety devices that, protect the cells inside from abuse. If damaged, these can cause the battery to ignite or explode.
- Do not charge the Power Bank and charge an electronic device at the same time. This will shorten the Power Bank's battery life.
